## DOWN TO SURE ENOUGH FIGHTING.

### The Attack at Santiago Renewed and a Bloody Battle Fought.

#### Insurgents Join In an Assault From the Land.

#### Army and Navy Deficiency Bill Passed, and Revenue Measure Will Pass To-Day.

Port au Prince, Hayti, June 2.—Special.—The United States fleet this morning renewed the attack upon the forts protecting harbor at Santiago de Cuba and a fierce fight ensued. At the same time an insurgent force of 3,000 well armed men attacked the city of Santiago from the land side and the battle was a terrific one. The city lies at the head of the narrow bay, seven miles from the harbor's mouth and is protected by numerous forts on both sides of the bay. The guns of these forts could not resist the attack of the insurgents without destroying the city between them and the victorious rebels who fought with great valor and with terrific effect, as they had lately been supplied by the Americans with the most improved implements of destruction. When the last report was received, the battle was still going on.

#### Another Bombardment at Santiago.

#### This Time a Far More Serious Affair.

Washington, June 2.—(Special.)—The New York afternoon papers this evening issued extras giving the reports of a second battle rumored to have taken place at Santiago de Cuba. The news came by telegram from Jamaica, about 150 miles South of Santiago, and also from Cape Haytien, 200 miles to the East.

It is said that Commodore Schley made an attack on the fortifications of the harbor this morning and simultaneously the insurgents attacked the city of Santiago from the hills in the rear and on two sides. The bombardment by Schley's guns was very heavy and destructive and attended with much loss of life among the Spaniards.

Many gunners were killed and new men were sent to take their places. The battle was still in progress when the latest reports were received, the fighting by land and sea being of the most desperate and determined character. The American ships were close in the mouth of the harbor pouring a fierce storm of shot and shell into the forts which were being demolished by the hail of metal. A panic was prevailing in the city of Santiago by reason of the joint attack, and the surrender of the place was believed to be at hand.

War experts credit the reports, as the Department was expecting important developments to-day.

#### As Seen At Washington,

#### Attack Liable at Any Time.

Washington, D. C. June 2. (Special.)—The Navy Department is firmly expecting decisive results from Santiago, although no troops have yet started from Tampa. Garcia's headquarters are about 75 miles from Santiago and Capt. Dorst has been in communication with him. If Sampson feels strong enough he is liable to begin an attack at once by land and sea, aided by the insurgents.

#### Will Move 90,000 Men.

#### Of These 20,000 Start at Once.

Washington, June 1.—(Special.)—For the first time since the beginning of the hostilities there appears to be something in the nature of an official statement of the plan of campaign of the United States Government. This is contained in a letter of Secretary Alger to the Speaker of the House, transmitting certain recommendations and statements of Gen. Ludlow, which disclosed the purpose of the War Department to send 70,000 men to Cuba, 20,000 to start at once and the remainder just as soon as they can be made ready for departure.

#### Hawaii Is As Good As Ours.

#### Practically Annexed to the U. S.

Washington, D. C., June 2.—(Special.)—It is now claimed that Hawaii is practically annexed to the United States. The cruiser Char-

leston coals there enroute to the Philippines and other vessels will do likewise. The Hawaiians have broken all laws of neutrality in aiding the United States. The latter was forced to protect them from the Spanish. The Hawaiians are accumulating vast stores of coal at Honolulu for the American ships.

#### Ready For the Final Vote---

#### The Bond and Revenue Bill.

Washington, D. C. June 2. (Special.)—The House to-day passed the War and Navy Deficiency Bill, including the expense of the invasion of the Philippines.

When the Senate adjourned this evening the war revenue measure was completed except the bond provision and the amendments proposed by the Democrats in lieu of the bond paragraph. It was agreed to take a final vote to-morrow before adjournment. All committee amendments except those mentioned were agreed to. Several efforts were made to eliminate amendments, but they were all unsuccessful.

#### The Britisher Turned Loose---She

#### Started Across Before the War Began.

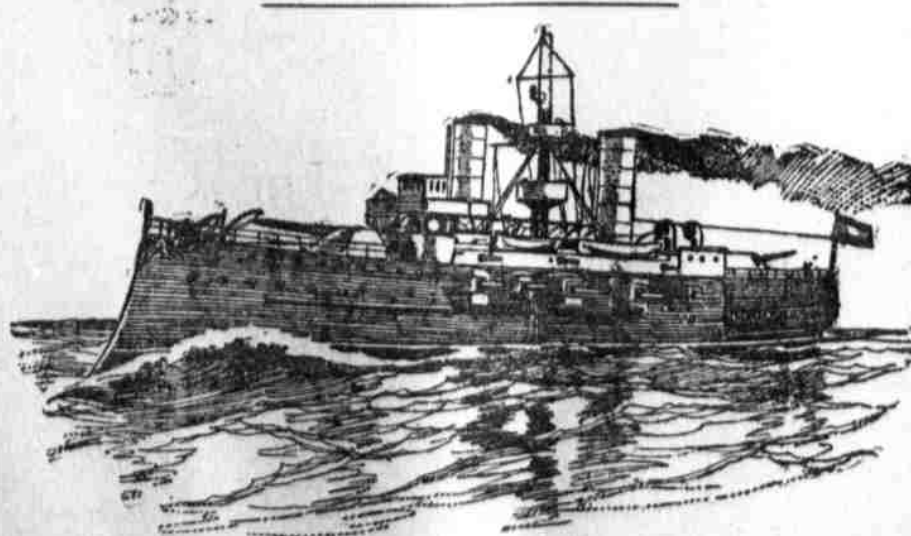

Key West, June 2. (Special.)—The British steamer Restormel has been released because she left England before the declaration war between Spain and the United States. She was seized for an attempt to land coal at Santiago.

#### ADMIRAL CERVERA'S FLAG SHIP.

#### ARMORED CRUISER CRISTOBAL COLON.

The Cristobal Colon is an armored cruiser of the Carlos V type. Her battery consists of two 11 inch rifles and five 5 inch rapid fire guns. The former throw projectiles of 500 pounds weight and the guns are capable of discharging twelve 70 pound shots every minute. She ought to prove a dangerous customer in a fight.

#### A Runaway.

#### THERE WERE SEVEN.

That Was the Number of Young Lady Graduates.

Class of Pretty Girls Who Put Scholar Life Behind Them at B. F. C.

The closing exercises of Bethel Female College were held last night at the college and the brilliant affair marked the close of one of the most successful sessions in the history of the school.

The handsome grounds and the commodious college buildings were alive with the beaux and belles, the beauty and gallantry of the city and the friends and well-wishers of the college, who gathered by hundreds to lend their presence to the auspicious occasion. The floral decorations were most elegant and the program carried out was unusually entertaining.

The music was by the three piano graduates, Misses Elizabeth Currier, Evie Nash and Elizabeth Nourse, with Miss Hall assisting. The selections were all charmingly rendered.

Certificates of graduation in the degree of B. S. were awarded to Miss Alberta Baker, Julien, Ky.; Miss Ora Baker, Julien, Ky.; Miss Elizabeth Currier, Paris, Tenn.; Miss Annie Carver, Hermitage, Tenn.; Miss Mabel Lloyd, Pembroke, Ky.; Miss Sara Garnett, Pembroke, Ky.; Miss Elizabeth Nourse, Hopkinsville, Ky.

#### Lieut. Bassett at Frankfort.

Frankfort, Ky., June 2.—(Special.)—Col. Colson still thinks the second call will permit his regiment to be mustered, and while realizing that the present orders are against this, has set to work systematically to do what he can by bringing influences to bear on Washington authorities.

E. B. Bassett, late Lieutenant of the Hopkinsville company, was a caller at the Executive office this morning. There is an effort being made to have the old company reorganized.

#### Rainy Season Has Begun.

Tampa, Fla., June 2.—The rainy season set in at Tampa yesterday with a downpour that tested guy ropes and tent pegs. The overture lasted an hour, but the real Florida shower which broke loose just as the camp cooks were stirring the bacon and grinding the coffee lasted several hours. It gave the "brownies" (the new names of the soldiers) a little hint of the coming days in Cuba, provided this force shall pitch its tents on the island before October. The "brownies" have been waiting and hoping for rain for weeks, and their wait was ended and their hopes more than realized.

Nat Poindexter, Col., Arrested By a Tennessee Constable.

Wanted in Clarksville for Selling the Same Tobacco to Two Parties.

An important arrest was made in this county yesterday by an officer from Tennessee.

Nat Poindexter, col., who lives near Garrettsburg, was some time ago indicted in Clarksville for obtaining money under false pretenses. His offense consisted in drawing money on a tobacco crop from one firm and subsequently selling it to other parties. Armed with a warrant for Poindexter's arrest, Constable Darnell, of Montgomery Co., came over the State line, and assisted by Constable Frank Rives, of Howell, took Poindexter in custody as above mentioned. They brought him to this city about 10 o'clock yesterday morning, with the intention of securing requisition papers. Poindexter conferred with local attorneys, who advised him to return to Tennessee and stand his trial, without the requisition papers. Accordingly Constable Darnell left with the prisoner yesterday afternoon on the 5:13 train.

Willis, will be elected Custodian of Public Buildings unless he goes to war as an Adjutant under the second call. Miss Hardin's administration of the office is sure to be a successful and popular one. Mrs. Cromwell's could not have been more so. The wind-up of Mrs. Cromwell's work has been the completion of the magnificent big library room in the Executive building, which will hold all of the 10,000 volumes now stored in a dozen different rooms.
